Plan Your Oracle HCM Redwood Adoption Journey with Us!

Engineer your experience with our proprietary tool - Redwood Key

Oracle is moving to Redwood UX for all key interfaces within Oracle HCM Cloud. This exciting update signifies a shift toward a more modern and user-friendly experience. But navigating this transition can be daunting. That's where Zensar steps in!

Key Features of Redwood

Enhanced user experience:
Intuitive interface simplifies daily tasks for employees and managers.

Modern functionality:
Leverage the latest features and capabilities built into the Redwood platform.

Future-proof solution:
Enjoy continued support and development as Redwood is the future of Oracle HCM Cloud.

How does it work?

Impact Analysis Phase
- Module assessment
- Fit gap analysis
- Reporting with Redwood Key (proprietary accelerator)

Planning Phase
- Assessment validation
- Deployment planning
- Change management

Deployment Phase
- Unit testing/integration testing/acceptance testing
- Go-live
- Warranty support

Benefits

- Reduce migration effort by up to 17%
- Stay compliant with early adoption and faster rollout
- Get your HCM systems ready to uptake more quarterly releases

Schedule a complimentary 30-minute discussion with our experts, for a smooth Redwood UX migration! Write to us at **info@zensar.com**
